Memorandum for Heads of Executive Departments and Agencies

From: Kiran A. Ahuja
Director

Subject: Guidance on Applying Coronavirus Disease 2019 Vaccination Requirements to New Hires – Executive Order 14043

Note: *The guidance within the memorandum below has been rescinded by [Executive Order 14099 “Moving Beyond COVID-19 Vaccination Requirements for Federal Workers.”](#)*

On September 9, 2021, President Biden signed Executive Order (EO) 14043, titled, “Requiring Coronavirus Disease 2019 Vaccination for Federal Employees.” As stated in Section 1 of the EO, the President has determined that in order to promote the health and safety of the workforce and the efficiency of the civil service, it is necessary for all agencies to require COVID–19 vaccination for Federal employees covered by EO 14043, subject only to such exceptions as required by law.

As directed in the EO, the Safer Federal Workforce Task Force, established by EO 13991 (January 20, 2021) (“Task Force”), has issued [guidance](#) to assist agencies with implementing the vaccination requirement. That guidance specifies that agencies should require all of their employees, with exceptions only as required by law, to be fully vaccinated by November 22, 2021.

The U.S. Office of Personnel Management (OPM) is issuing this guidance on hiring actions to assist agencies in implementing the Executive Order and Task Force’s guidance.

Current Federal Employees

People are considered fully vaccinated two weeks after their second shot in a two-dose series, or two weeks after a single-shot series. In order to have covered Federal employees vaccinated by November 22, 2021, agencies should inform employees of the following scheduling considerations, based on the type of vaccine they obtain:

- For Pfizer-BioNTech COVID-19 vaccine, individuals should get their second shot 3 weeks (or 21 days) after the first. This means that in order for Federal employees to meet a November 22 deadline, they should receive their first vaccination no later than October 18, and their second dose no later than November 8.
- For Moderna COVID-19 vaccine, individuals should get their second shot 4 weeks (or 28 days) after their first. This means that in order for Federal employees to meet a November 22 deadline, they should receive their first vaccination dose no later than October 11, and their second dose no later than November 8.

- Because the Johnson & Johnson/Janssen vaccine only has one shot, Federal employees must get that dose by November 8, in order to meet a November 22, 2021 deadline to be fully vaccinated.

Of course, it is advisable not to leave vaccinations to the last possible date, as other events often interfere with even well-laid plans.

New Employees

Agencies are urged to require all new employees to be fully vaccinated prior to entering on duty, subject to such exceptions as required by law. Agencies should address the vaccination requirement in their job opportunity announcements and in tentative and final offers of employment.

1. Job Opportunity Announcements

When advertising vacancies, agencies should clearly describe in their job opportunity announcements the COVID-19 vaccination requirement and, for positions with a duty location having an official government worksite, information about the agency's reentry plan, to the extent that plan has been finalized. Here is sample language agencies may wish to use or revise:

- As required by [Executive Order 14043](#), Federal employees are required to be fully vaccinated against COVID-19 regardless of the employee's duty location or work arrangement (e.g., telework, remote work, etc.), subject to such exceptions as required by law. If selected, you will be required to be vaccinated against COVID-19 and submit documentation of proof of vaccination by November 22, 2021 or before appointment or onboarding with the agency, if after November 22. The agency will provide additional information regarding what information or documentation will be needed and how you can request of the agency a legally required exception from this requirement.
- Due to COVID-19, the agency is currently in an expanded telework posture. If selected, you may be expected to temporarily telework, even if your home is located outside the local commuting area. Once employees are permitted to return to the office, you will be expected to report to the duty station listed on this announcement within [X] days. At that time, you may be eligible to request to continue to telework one or more days a pay period depending upon the terms of the agency's telework policy.

When an individual fails to meet a requirement stated in the job opportunity announcement, the agency may take action up to and including rescinding the offer for an applicant or termination from service of a new employee (or removal for an employee who has accrued adverse action rights). Should an agency identify an urgent, mission-critical hiring need to onboard new staff prior to those new staff becoming fully vaccinated, the agency head may delay the vaccination requirement for selected job applicants, such that they do not need to be fully vaccinated against COVID-19 and submit documentation of proof of vaccination before appointment or onboarding with the agency. In the case of such limited delays, agencies are expected to require new hires to be fully vaccinated within 60 days of their start date and to follow safety protocols for not fully vaccinated individuals until they are fully vaccinated.

2. Tentative and Final Offer Letters

Agencies should make offers of employment contingent on submission of documentation demonstrating compliance with the vaccination requirement in EO 14043. Agencies should provide information about the vaccination requirement in tentative and final offer letters. Here is sample language you may wish to use or revise in tentative and final offer letters:

- Tentative Offer – This is a tentative offer of employment. If you receive a final offer, it will be contingent on you providing appropriate documentation of proof of COVID-19 vaccination by the date set in the final offer letter. You can provide a copy of the record of immunization from a health care provider or pharmacy, a copy of the COVID-19 Vaccination Record Card, a copy of medical records documenting the vaccination, a copy of immunization records from a public health or state immunization information system, or a copy of any other official documentation containing required data points (type of vaccine administered, date(s) of administration, and the name of the health care professional(s) or clinic site(s) administering the vaccine(s)). The agency will provide additional information regarding how you can request of the agency a legally required exception from this requirement.
- Final Offer – Documentation of proof of COVID-19 vaccination must be received by [insert date -November 22, 2021 or before EOD, if after November 22]. You can provide a copy of the record of immunization from a health care provider or pharmacy, a copy of the COVID-19 Vaccination Record Card, a copy of medical records documenting the vaccination, a copy of immunization records from a public health or state immunization information system, or a copy of any other official documentation containing required data points (type of vaccine administered, date(s) of administration, and the name of the health care professional(s) or clinic site(s) administering the vaccine(s)). The agency will provide additional information regarding how you can request of the agency a legally required exception from this requirement.

For hiring actions currently underway, agencies should issue revised tentative and final offer letters to advise candidates of the new vaccination requirement. You may wish to use the above sample language in such revised offer letters.
