President's Message

Excerpt from *The President's Management Agenda, Fiscal Year 2002*

“Government likes to begin things—to declare grand new programs and causes. But good beginnings are not the measure of success. What matters in the end is completion. Performance. Results. Not just making promises, but making good on promises. In my Administration, that will be the standard from the farthest regional office of government to the highest office in the land.

This Administration is dedicated to ensuring that the resources entrusted to the federal government are well managed and wisely used. We owe that to the American people.”

George W. Bush
