MEMORANDUM FOR: HUMAN RESOURCES DIRECTORS

FROM: KIMBERLY A. HOLDEN, DEPUTY ASSOCIATE DIRECTOR,
RECRUITMENT AND HIRING

Subject: Revised Qualification Standard for Professional Engineering Occupations,
0800

The U.S. Office of Personnel Management is issuing a revised qualification standard for all professional engineering positions, 0800.

We have updated information and language to reflect changes in the examinations used for registration and licensure of professional engineers. Experience and education requirements are unchanged. Conditions for both professional registration and licensure options used to qualify in lieu of required education are also unchanged.

A copy of the final standard is attached. Agencies should now begin using this standard for filling all covered positions.

Thank you for your assistance in updating this standard. If you have questions, or would like additional information please contact the Classification and Assessment Policy Office at fedclass@opm.gov.
